

Dear Cooper High School Parent,

The 2010 spring sport season will soon be in full effect. For those of you that I have not had the pleasure of meeting let me now take the opportunity to introduce myself. My name is Dan Eidenier and I am an employee at St. Elizabeth Sports Medicine. This year will be my second year with Cooper High; and will be our first year under the free care of St. Elizabeth Sports Medicine.

Our goal is to provide the athletes of Cooper High School with quality sports medicine care to allow for a safe and timely return to competition. Similar to last season, I will be available every day after school to evaluate any new injuries and treat any existing injuries. I will also attend all home Varsity events and most J.V. events. My office is located just off the main gymnasium until the end of the winter sport season. At which point I will be at my office on the back side of the field house. You are welcome to contact me to speak with me about any concern or question you may have. If your athlete sustains an injury that needs to be seen by a physician, I will be happy to help with scheduling that appointment. I work in conjunction with Dr. Michael Miller and the sports medicine staff at St. Elizabeth Sports Medicine, as well as the physicians at Commonwealth Orthopaedic Centers and can often speed up the process of scheduling these appointments.

Please feel free to contact me with any questions or concerns that you may have.

I look forward to a great, safe season. Good luck!

Dan Eidenier, ATC
